

4. Nutrient CE challenges

Organic Housewife

Safety & Perception

Food grown in SEWAGE SLUDGE
from sewage
into crop yields

Struvite producer

"What are the criteria
to put a safe product on
the market?"

Research on fertilizers from
human urine:
- The risk to human health
from eating the crops is
insignificant.
(De Boer, Hammarston, Slootweg, 2018)

Contaminants are the 3rd factor
